

The old 'local' logon

The new website has many new features, but we have withdrawn one service – on the old website you could log on to a simple repeat prescription request service. You could also log on to a more comprehensive service that included booking appointments.

The two log-ons were confusing, and we now have a single system where you do everything! Back on the website click on Online Services (It's a button on the right side of all pages) for details.

If you have any questions please contact either surgery.
